

STREAMLINE® WATER FILTRATION SYSTEMS

STREAMLINE® water filtration systems are designed to be used for window cleaning, solar panel cleaning, boat cleaning etc. where a spot free finish is essential.

To achieve this, the system has a series of filters to produce purewater with a reading of Oppm. However, the filters require maintenance from time to time to maintain optimum efficiency.

Our water filtration systems are simple in design and construction, and simple to use. They are available in a range of tank sizes and filter specification to meet your exact requirements. As all our systems are made bespoke to our customers' requirements, you can be sure of having a system that meets your demands.

If you are in a soft water area you would only require a resin bead system, and if you are in a hard water area you would require a full Reverse Osmosis system.

All van mounted systems are fitted in-house at Varitech Systems. This ensures every system is made and fitted to customers' specifications. Also, all STREAMLINE® systems are backed with full spares availability and technical support.

FEATURES

- Stainless steel frame, corrosion resistant and incredibly strong.
- Digital flow controller, for precision water flow.
- Pre-filters to extend the life of the beads.
- Inline solenoid valve with automatic shut-off for ease of filling.
- Reliable 12 volt on demand STREAMFLO® pump with pressure switch.
- Robust, baffled polyethylene tanks with vented caps
- Reverse osmosis filter which reduces running costs in hard water areas.
- Regenerating bead unit to keep softener beads in optimum condition.
- Softener bead filter to prepare water for the R.O. filter.
- De-ionising bead filter for the final polishing stage.

Think you could benefit from a STREAMLINE® filtration system? Call our helpful sales team on 01626 830830 or email sales@varitechsystems.co.uk to discuss your requirements.

SYSTEM OPTIONS

| TANK SIZES | DESCRIPTION |
|---------------------------|--|
| 125 LITRE SYSTEMS | |
| MINI 125 | 125 Ltr Resin Bead Filter System |
| 175 LITRE SYSTEMS | |
| MIDI 175 | 175 Ltr Resin Bead Filter System |
| 250 LITRE SYSTEMS | |
| CLUB 250 | 250 Ltr Resin Bead Filter System |
| CLUB 250-RO | 250 Ltr Reverse Osmosis Filter System |
| 350 LITRE SYSTEMS | |
| MIDI 350 | 350 Ltr Resin Bead Filter System |
| MIDI 350-RO | 350 Ltr Reverse Osmosis Filter System |
| 400 LITRE SYSTEMS | |
| INTER 400 | 400 Ltr Resin Bead Filter System |
| INTER 400-RO | 400 Ltr Reverse Osmosis Filter System |
| 500 LITRE SYSTEMS | |
| CONTACTOR 500 | 500 Ltr Resin Bead Filter System |
| CONTACTOR 500-D | 500 Ltr Double Operator Resin Bead Filter System with FHIs |
| CONTACTOR 500-RO | 500 Ltr Reverse Osmosis Filter System |
| 650 LITRE SYSTEMS | |
| BRAVO 650 | 650 Ltr Resin Bead Filter System c/w Prefiltration |
| BRAVO 650-RO | 650 Ltr Reverse Osmosis Filter System |
| BRAVO 650RO-D | 650 Ltr RO Filter System Double Operator |
| 800 LITRE SYSTEMS | |
| INTER 800-D | 800 Ltr Resin Bead System Double Operator |
| INTER 800-RO | 800 Ltr Reverse Osmosis Filter System |
| INTER 800RO-D | 800 Ltr Reverse Osmosis Filter System Double Operator |
| 1000 LITRE SYSTEMS | |
| MAXI 1000 | 1000 Ltr Resin Bead Filter System Double Operator no DI |
| MAXI 1000-D | 1000 Ltr Resin Bead Filter System Double Operator |
| MAXI 1000-RO-D | 1000 Ltr Reverse Osmosis Filtration System Double Operator |
