

Reliable pressure washers are a must and few would disagree that petrol driven Honda pressure washers certainly tick this box.

Pressure washing at height has a key part in all external cleaning regimes and in this current economic climate, which everyone vying for business and trying to draw custom into their shops, outward appearances are everything. They say, 'you never get a second chance to make a first impression'.

Reliable pressure washers are a must and few would disagree that the petrol driven Honda pressure washers certainly tick this box. We have designed a system to utilise reject water from the reverse osmosis window cleaning systems which traditionally waste up to 50% of the water. This is then utilised for pressure washing instead, as water purity is of no consequence in this application.

A new range of reliable Honda powered pressure washers has been brought to the fore...
